**ITEM AND DESCRIPTION**

Shawnee County is soliciting bids for the 2023 purchase and delivery of **Glass Spheres for Reflective Traffic Line Pavement Markings** per the following minimum specifications.

**Technical Specifications:**

This specification is to cover glass spheres for application to traffic line paint for the production of reflective surface creating improved night visibility of the traffic line without altering daytime visibility of the markings.

This specification is for glass spheres used in the drop-on type application to street, highway, curb and median painted markings.

The glass spheres are to be manufactured from a composition designed to be highly resistant to traffic wear and the effect of weathering.

### Description:

Glass spheres shall be transparent spheres meeting the following requirements.

### Refractive Index

The spheres shall have an average index of refraction not less than 1.50 when tested by the liquid immersion method at 25 degrees centigrade.

### Size

The glass spheres shall conform to the following graduation when tested according to ASTM D-1214:

U.S. Standard-Sieve	No. 16	100% passing
	No. 40	40% - 60% passing
	No. 100	0% - 3% passing

### Imperfect Glass Spheres

The glass spheres shall not contain more than twenty (20) percent irregular particles when tested by ASTM D-1155. Imperfect glass spheres are defined as spheres which are ovate or otherwise non-spherical in shape, two or more beads fused together, opaque spheres or pitted spheres.

### Moisture Resistance

Spheres shall pass the "Free Flow Test".

### Required Apparatus:

1. Standard one-pint screw cap mason jars with two piece covers consisting of a flat cover plate with sealing gasket attached and a crew ring to hold the cover plate on the jar.
2. Special sixty-degree brass funnel with four-inch stem. Inside diameter of the stem shall be 0.25 inches plus or minus 0.004 inches. The top of the funnel shall be soldered to one of the screw rings from a jar so that the funnel can be screwed to the top of the jar. The inside surface of the funnel shall be kept polished smooth.
3. Measuring pipette, Mohr Type, Capacity 0.100 ml. With graduation lines at intervals of 1/100 ml.

### Procedures

Using a sample splitter, obtain a representative 300-gram sample of the spheres. Transfer the sample to one of the pint fruit jars and place the uncovered jar and sample in an air oven at 105 to 110 degrees centigrade for sixteen hours. Remove the jar from the oven and immediately seal it with one of the jar cover plates and screw ring. Allow cooling to room temperature. If, after cooling, the spheres have stuck together forming lumps, shake the jar violently until all lumps are broken up. This must be done without removing the cover.

After breaking up lumps, remove the cover and quickly add 0.090 ml. of distilled water from the measuring pipette. Immediately seal the jar with the cover and screw ring and shake jar and contents violently for twenty seconds. Let stand for four hours; shake and tumble the spheres in the sealed jar for twenty seconds at the end of the first, second and third hour of standing. At the end of the fourth hour, without shaking, remove the cover and quickly screw the special funnel to the top of the jar. Invert the jar and support it in a vertical position. The spheres shall flow from the jar through the stem of the funnel. It is permissible to tap the funnel to start the flow; but if it is necessary to keep tapping the funnel to keep

the spheres flowing, they do not pass the test. A small amount of spheres sticking to the sides of the jar or lying on the jar shoulder shall not be cause for rejection.

#### PACKAGING, SAMPLING, TESTING AND SHIPPING:

##### Packaging

All spheres shall be packed in 50-pound paper bag containers having leak-proof, moisture proof liners. Pallet deliveries shall have 40 each of the 50-pound bags and be shrink-wrapped.

##### Testing

A sample will be taken and tested out of each 90 bags received by Shawnee County. Each sample tested must comply with the above specifications or the bidder will be charged to cover cost of testing for each sample that fails to meet the specifications and will cause rejection of that sample.

In the event that goods or services delivered by the vendor are unsatisfactory and remain unsatisfactory after a notice and an opportunity to correct the deficiencies, the County reserves the right to purchase substitute goods or services from the other bidders.

Shawnee County reserves the right to negotiate separately with any vendor after the opening of this RFQ when such action is considered in its best interest. Subsequent negotiations may be conducted, but such negotiations will not constitute acceptance, rejection or a counteroffer on the part of the County.

Shawnee County interprets the term “lowest responsible and best bidder” as requiring Shawnee County to:

- A. Choose between the kinds of materials, goods, wares, or services subject to the proposal, and
- B. Determine which proposal is most suitable for its intended use or purpose. Shawnee County can consider among other factors such things as labor cost, service and parts availability and maintenance costs of items upon which proposals are received. Shawnee County can determine any differences or variations in the quality or character of the material, goods, wares or services performed or provided by the respective vendors.

Shawnee County will award the bid. If the successful vendor refuses or fails to make deliveries of the materials/services within the times specified in the RFQ, purchase order or contractual agreement, Shawnee County may by written notice, terminate the contract OR purchase order. The vendor hereby certifies that he or she has carefully examined all of the documents for the project, has carefully and thoroughly reviewed this RFQ, understands the nature and scope of the work to be done; and that this proposal is based upon the terms, specifications, requirements and conditions of the RFQ, and documents. The vendor further agrees that the performance time specified is a reasonable time, having carefully considered the nature and scope for the project as aforesaid.

Shawnee County will use discretion with regards to disclosure of proprietary information contained in any response, but cannot guarantee the information will not be made public. As a governmental entity, Shawnee County is subject to making records available for disclosure pursuant to the Kansas Open Records Act. Agreements shall be construed and interpreted so as to ensure that the County shall at all times stay in conformity with such laws, and as a condition of agreements the County reserves the right to unilaterally sever, modify, or terminate agreement at any time if, in the opinion of its legal counsel, the Agreement may be deemed to violate the terms of such law.

The vendor certifies that this proposal is submitted without collusion fraud, or misrepresentation as to other vendors, so that all proposals for the project will result from free, open, and competitive proposing among all vendors.

This RFQ, responses thereto and any contract documents will be governed by the law of the State of Kansas. Any dispute arising out of the same will be litigated only within the courts of the State of Kansas.

Vendor agrees that all data, documents, and information, regardless of form that is generated as a result of this RFQ are the property of Shawnee County. The County shall not be liable to reimburse any vendor for the costs of creating, compiling or delivering the same to the County.

By submission of a response, the proposer agrees that at the time of submittal, it: 1) has no interest (including financial benefit, commission, finder's fee, or any other remuneration) and will not acquire any interest, either direct or indirect, that would conflict in any manner or degree with the performance of proposer's services, or 2) benefit from an award resulting in a "Conflict of Interest."
